MOUNT VERNON, ILLINOIS

“There Is Nothing More Important Than Accuracy”—DANIEL WILLARD
President, “B & O” R.R.

WHEN the President of a great American Railroad makes a statement like the above it is considered news for the world at large. But to a railroad man it is no news—it is simply a plain statement of facts. Railroad men everywhere know that nothing is as important as accuracy. And for that reason more and more railroads are turning to the Hamilton Watch and making it their personal timepiece.

Many men who work with an eye constantly on their watches know that the Hamilton is both accurate and dependable. Veterans like Engineer Satterfield of the B & O—and veteran conductors, too—have proved the Hamilton by years of service. Young men, just entering the railroad field, are choosing Hamiltons in order to be equipped with watches that will

leave them in no doubt about accurate time. And the men who have carried Hamiltons thirty years, or men who have carried them as many months, are equally strong in their endorsement of “The Railroad Timekeeper of America.”

Ask your jeweler to show you the New Railroad Model Cases in which are fitted the Famous Hamilton 992 movement. Here is a watch that is the last word in sturdiness, rugged beauty, and accurate, dependable timekeeping service. It can be had in 10K yellow filled gold or 14K green, yellow or white filled gold. Your choice of different railroad type dials. As you examine these Hamiltons remember they are the watches that have helped make railroad history—watches that truly represent the highest development in economical time service.
