

Mr. B. T. Juden, yard clerk, is the smiling grandfather now as he has a brand-new grandson. We have been unable to learn what his name is.

B. F. Hinkle and family moved to Chaffee, Mo., April 1, where they will make their home. Everyone was sorry to see Mr. Hinkle leave and he will be missed by all.

Miss Marie Moon, daughter of M. T. Moon, cashier, has been spending a spring vacation with home folks. She returned to school Sunday night, April 6.

G. D. Gorham is temporarily filling the vacancy as assistant cashier.

Mr. J. Loeckner, traveling auditor, visited the office for a short while Saturday, April 5, between trains.

A special train service is now being given to points between Lake City and Blytheville, Ark., giving perishable commodities preferred movement.

New Power for the Frisco

TWENTY additional Baldwin Mikado type locomotives will soon be in operation on the Frisco System hauling heavy tonnage trains.

In July, 1929, a Baldwin Mikado, built in 1923, made a remarkable endurance run of 7350 miles without having the fire knocked.

Cast Steel Spring Bands That Are Effecting Large Savings

RAILROADS using cast steel spring bands report a saving over cost of manufacturing wrought iron bands in their own shops. Wrought iron bands crease the corners; the iron is burnt in forging; they are not uniform in thickness, and there is considerable loss due to imperfect welds.

Cast steel bands have solid corners, are free from burning, and of uniform thickness, and require no welding. The strength of these bands compare as follows:

	Tensile Strength	Elastic Limit
	lb. per sq. in.	lb. per sq. in.
Wrought Iron Bands—		
	40,000	25,000
Cast Steel Bands—		
	70,000	36,000

We can effect a saving in manufacturing cost and insure long wearing bands that are free from failures.
