HAYWARD BUCKETS

STAND FIRST IN RAILROAD WORK

This illustration shows the adaptability of Hayward Clam Shell Buckets for coaling locomotives or removing ashes from ash-pits. When operated by a locomotive crane, this is the quickest and most economical method of rehandling such materials.

Wherever economy and speed of operation is in demand, there you will find Hayward Buckets and Hayward Machinery.

WRITE FOR CATALOGS Nos. 38 AND 39, FULLY DESCRIBING HAYWARD MACHINERY FOR RAILROADS
