# How Much Salary Are You Worth?

What can you do that any one of a million others could not do just as well? How much result-increasing or expense-decreasing knowledge can you bring to bear in your work? Have you any special ability? Is there any reason why an employer should single you out for more than average pay? Or are you just an average workman?

The **Help Wanted** columns of trade papers teem with appeals for trained men. Draftsmen are wanted; foremen are wanted; superintendents are wanted; machine designers are wanted; chemists are wanted; advertising men are wanted; electrical, civil, mechanical, and mining engineers are wanted; architects are wanted. Your salary will always be governed by the kind of work you are prepared to do. How much salary are you worth?

It will cost you nothing but postage to find out all about the I. C. S. plan for making you worth more salary. Mark and mail the coupon. Doing it will place you under no obligation. Don't wait till tomorrow.

**Mark and Mail the Coupon NOW**

## International Correspondence Schools Box 1167, Scranton, Pa.

Please explain, without further obligation on my part, how I can qualify for the position, trade, or profession before which I have marked X.

Present Occupation \_\_\_\_\_

Measured in distance, seconds mean a lot to the R. R. man. A train a half mile—or a quarter mile ahead or behind schedule might result in accident, loss of property and lives. That is the reason for the R. R. watch. That is why over thirty years ago, the first watch was designed especially for R. R. use. It was a Waltham Watch. All other makes of R. R. watches are practically recent efforts. The knowledge obtained from years of experience in producing R. R. Watches by the Waltham Watch Company is crystallized in the

# WALTHAM

## *“Vanguard”*

The Vanguard is the highest type of a R. R. watch. It is carefully adjusted to temperature, isochronism and five positions. The strength of its construction will preserve this adjustment under hardest service. The Vanguard's matchless durability, reliability and accuracy has made it the favored watch on the great R. R. systems.

Made in 19-21 and 23 jewel grades and in 18 and 16 sizes. Balance pivots run on diamond end stones. This is just one of the refinements that makes the Vanguard always pass inspection.
