A Thought for 1915

NCESSARY and beneficial as some of our railroad laws may be, Congress and State legislatures may enact laws until their combined tonnage would block traffic; officials may go on issuing rules, bulletins, and notices until every caboose looks like a circulating library; and you may keep a factory inspector in every shop, and we will go on with this string of preventable accidents, until you men, as you stand before the machine in the shops, as you repair equipment in the yards, as you work upon the track, as you run your engines and handle the cars, begin to think earnestly how you can make this move and do this work in the safe and proper way; until you become convinced, and with a firm determination act upon the conviction, that you can and you will do your work without these accidents.
